

COMPANY PRESENTATION · 2026

Mobile internet in 200+ countries

An eSIM store for travel, relocation and business. You are connected the moment you land — cheaper than roaming, no plastic, no queues.

★ 4.9 — trusted by 200,000+ travelers

Plans from 114 ₺

5-minute activation

esimka.io · Telegram: @esimka

THE PROBLEM

Staying connected abroad is still a pain

Expensive roaming

One week of roaming bills from your home carrier can rival the airfare. Connectivity abroad should not cost as much as the flight.

Queues and plastic

A SIM-kiosk hunt at the airport, passport, contract, physical card — needless steps right after landing.

Hunting for Wi-Fi

Depending on cafe, hotel and airport networks: unstable, unsafe and unavailable on the road.

No connection from minute one

You need taxis, maps, banking, messengers and a translator right away — but there is no internet yet.

THE SOLUTION

eSimka — connected from minute one, anywhere

eSIM is a digital SIM built right into your phone. We sell data plans for it: pick a country, pay — and get a QR code by email. Activation takes 5 minutes.

- ✓ No plastic cards — the profile installs from a QR code
- ✓ No queues — buy online on the website or in the Telegram bot
- ✓ No roaming — local rates wherever you travel
- ✓ The eSIM works alongside your regular SIM

- 3 QR code by email**
instantly after payment
- 4 Scan it — you are online**
internet the moment you land

KEY METRICS

eSimka in numbers

200,000+

travelers trust us, with an average rating of 4.9

200+

countries and regions covered — from Europe to Oceania

5 minutes

from payment to activation: the QR code arrives by email instantly

24/7

human support around the clock — real people, not bots

from 114 ₺

starter plans: connectivity for the price of a cup of coffee

up to 5x

cheaper than classic roaming from home carriers

Three steps to internet in your pocket

01

Choose a plan

Country or region, data volume and validity.
Calls and SMS included in the plans
where you need them.

02

Install the eSIM

After payment you get a QR code and a
step-by-step guide by email. Point your
camera — the profile installs itself.

03

Done — you are online

Fast, stable internet from your first minute
in the country. Your remaining balance
never expires before your next trip.

Payment: Russian and international cards, SBP and more. Refunds — per the refund policy on the website.

The advantages people recommend us for

Up to 5× cheaper than roaming

Local rates instead of bills from your home carrier.

Instant issue

QR code right after payment — no delivery, no waiting.

Best-network auto-select

On arrival, the eSIM connects to an available carrier automatically.

Balance never expires

One balance for 200+ countries, stored indefinitely until your next trip.

Free Wi-Fi hotspot

Tethering is included: share your internet with family and colleagues.

Two SIMs at once

The eSIM runs alongside your physical SIM card.

Why we do this

// To make affordable internet abroad the norm, not a luxury. Anyone going abroad should be able to call, work and find their way around an unfamiliar city from minute one — without overpaying their carrier.

Honesty

No hidden fees:
the price you see is the
price you pay.

Simplicity

Easy activation for any
level of technical
skill.

Care

Round-the-clock support —
real humans,
not bots.

Sustainability

eSIM means no plastic:
fewer cards, less waste.

Earn on eSIM together with us

10%

on every eSIM sale and on all future client top-ups — for life

- ✓ Up to 10% discount for your clients — set in your dashboard
- ✓ Dashboard: links, UTM, statistics, payouts
- ✓ Official contract and closing documents
- ✓ Payouts: rubles, dollars or credit — on day 15
